# Create a Problem Statement

Work with your team to write a problem statement by answering the questions below. After you've completed this worksheet, combine your answers into a finished problem statement in paragraph form and share it with your mentor for feedback.

**What is** the problem you're trying to solve?

**Who** does the problem affect**?**

**What** do they need for the problem to be solved and **why**?

**What** is the solution?
